Professional Summary

Results-driven **AI Engineer and Full Stack Developer** with 2+ years of experience designing, building, and deploying **30+ production-grade applications** across ERP systems, e-commerce platforms, healthcare solutions, and trading systems. Proven expertise in scalable backend architecture using **Django REST Framework**, RESTful API design, and AI/ML model integration. Strong proficiency in **React, TypeScript, PostgreSQL**, and cloud-ready system design. Adept at delivering end-to-end solutions from database schema design to responsive frontend implementation.

Core Competencies

- **Backend:** Python, Django, Django REST Framework, RESTful APIs, JWT Authentication, OAuth2, Microservices Concepts
- **Frontend:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Design
- **Databases:** PostgreSQL, MySQL, Microsoft SQL Server, MongoDB, Database Schema Design, Query Optimization
- **AI & ML:** AI Model Integration, Machine Learning, Predictive Analytics, Data Science, Classification Algorithms
- **DevOps & Tools:** Git, GitHub, CI/CD Fundamentals, Linux, Agile/Scrum, pgAdmin, REST API Testing
- **Architecture:** Clean Architecture, MVC/MVT Patterns, Scalable System Design, Role-Based Access Control (RBAC)
- **Soft Skills:** Problem-Solving, Team Leadership, Technical Documentation, Cross-functional Communication

Professional Experience

- **Full Stack Developer** 2024 – Present
Freelance / Independent
 - Architected and deployed **30+ production-grade applications** including ERP systems, trading platforms, healthcare diagnostics tools, and e-commerce solutions.
 - Designed and implemented scalable **RESTful APIs** using Django REST Framework, reducing average API response time by **30%** through query optimization and caching strategies.
 - Engineered secure authentication systems using **JWT** and **Role-Based Access Control (RBAC)**, protecting data across multi-tenant applications.
 - Optimized relational database performance across **PostgreSQL, MySQL, and SQL Server**; improved query execution speed by up to **40%** through indexing and schema redesign.
 - Built dynamic, responsive UIs with **React and TypeScript**, improving cross-browser compatibility and user engagement.
 - Integrated **machine learning models** into production systems for predictive analytics, churn prediction, and medical diagnostics.
- **Junior IT Support Technician** 2025 – Present
Petra Software — Assiut, Egypt
 - Provided Tier-1 and Tier-2 technical support for enterprise software and network systems used by **50+ employees**.
 - Diagnosed and resolved hardware, software, and configuration issues.
 - Delivered onboarding training sessions and user documentation, reducing helpdesk ticket volume.
 - Collaborated with developers to reproduce, document, and escalate software bugs, accelerating patch deployment cycles.

Key Projects

- **Trade Spark Hub 14** — Scalable multi-module business platform with inventory management, sales tracking, and financial dashboards. Built with Django and React using clean architecture principles.
- **MedAI-Hub** — AI-powered healthcare platform integrating diagnostic ML models with patient data management; delivers real-time analysis via RESTful APIs, reducing diagnostic processing time significantly.
- **Insightful Churn Predictor** — Machine learning solution using classification algorithms for customer retention analysis; achieved **85%+ prediction accuracy**, enabling proactive retention strategies.
- **Enterprise ERP System** — Modular platform managing HR, procurement, inventory, and accounting for large-scale operations; built on Django with PostgreSQL and RBAC.
- **E-commerce Platforms** — Multiple secure e-commerce solutions with payment gateway integration, order management, admin dashboards, and JWT-secured APIs with React frontends.

Education

Bachelor of Science — Computer Science and Engineering

The Egyptian E-Learning University — Assiut Branch

Expected 2025

Certifications

- Data Science & AI Diploma — AMIT Learning (*2026*)
- Full-Stack Web Development — AMIT Learning (*2024*)
- Huawei AI Training — Huawei Technologies (*2022*)

Languages

- Arabic: Native
- English: Upper-Intermediate (B2)

Personal Information

Date of Birth: April 10, 2002 · Nationality: Egyptian · Military Status: Exempted
