Professional Summary

Results-driven **AI Engineer and Full Stack Developer** with **2+ years of experience** designing, building, and deploying **30+ production-grade applications** across ERP systems, e-commerce platforms, healthcare solutions, and trading systems. Certified from the intensive **243-Hour AI & Data Science Diploma** and **Full Stack React Python Diploma at AMIT Learning**. Currently managing enterprise web hosting stacks (**cPanel, SiteGround, Ubuntu Linux Servers**), DNS/SSL routing, and Tier-1/2 support at **Petra Software**. Proven expertise in scalable backend architecture using **Django REST Framework**, RESTful API design, database query optimization (**40% faster**), and **React / TypeScript**.

Core Competencies

- **Backend:** Python, Django, Django REST Framework, RESTful APIs, JWT Authentication, OAuth2, Microservices Concepts, Celery, Redis, Task Queues
- **Frontend:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design, Redux Toolkit, Context API, Axios
- **Databases:** PostgreSQL, MySQL, Microsoft SQL Server, MongoDB, Database Schema Design, Query Optimization, pgAdmin
- **AI & ML:** PyTorch, TensorFlow, Keras, CNNs, RNNs, Transformers, GANs, Scikit-Learn, Predictive Analytics, EDA with Pandas/NumPy, Plotly & Dash
- **Server & Cloud Ops:** Ubuntu Linux Server (22.04 LTS), cPanel & SiteGround Hosting, Nginx Reverse Proxy, Apache, DNS Zone Routing, SSL/TLS, SSH Security, Linux Bash
- **DevOps & Tools:** Git, GitHub, CI/CD Fundamentals, Linux CLI, Agile/Scrum, pgAdmin, REST API Testing, Postman
- **Architecture:** Clean Architecture, MVC/MVT Patterns, Scalable System Design, Role-Based Access Control (RBAC)
- **Soft Skills:** Problem-Solving, Team Leadership, Technical Documentation, Cross-functional Communication, System Diagnostics

Professional Experience

- **Junior IT Support Technician & Server Administrator** 2025 — Present
Petra Software — Assiut, Egypt
 - Provided Tier-1 and Tier-2 technical support for enterprise software and network systems used by **50+ employees**.
 - Administered web hosting environments on **cPanel, SiteGround**, and **Ubuntu Linux Servers**, sustaining 99.9% uptime.
 - Automated SSL certificate renewals, configured DNS zone files (A, CNAME, MX, TXT), and enforced secure SSH permissions.
 - Collaborated with developers to reproduce, document, and isolate server bottlenecks, accelerating patch deployment cycles.
- **Machine Learning & Deep Learning Specialist (AI Diploma)** 2025 — 2026
AMIT Learning (Licensed by MCIT & ITIDA) — 243 Training Hours
 - Completed **243 training hours** with **70+ hands-on labs** and **2 mega capstone projects** in AI and machine learning.
 - Built, trained, and optimized CNNs, RNNs, and Transformers using **PyTorch** and **TensorFlow/Keras** for computer vision and NLP.
 - Engineered data processing pipelines, exploratory data analysis with Pandas/NumPy, and interactive Dash/Plotly analytical apps.
- **Full Stack Developer** 2024 — Present
Freelance / Independent
 - Architected and deployed **30+ production-grade applications** including ERP systems, trading platforms, healthcare diagnostics tools, and e-commerce solutions.
 - Designed and implemented scalable **RESTful APIs** using Django REST Framework, reducing average API response time by **30%** through query optimization and caching strategies.
 - Engineered secure authentication systems using **JWT** and **Role-Based Access Control (RBAC)**, protecting data across multi-tenant applications.
 - Optimized relational database performance across **PostgreSQL, MySQL, and SQL Server**; improved query execution speed by up to **40%** through indexing and schema redesign.
 - Built dynamic, responsive UIs with **React and TypeScript**, improving cross-browser compatibility and user engagement.
 - Integrated **machine learning models** into production systems for predictive analytics, churn prediction, and medical diagnostics.

Key Projects

- **Trade Spark Hub 14** — Scalable multi-module business platform with inventory management, sales tracking, and financial dashboards. Built with Django and React using clean architecture principles.
- **MedAI-Hub** — AI-powered healthcare platform integrating diagnostic ML models with patient data management; delivers real-time analysis via RESTful APIs, reducing diagnostic processing time significantly.
- **Insightful Churn Predictor** — Machine learning solution using classification algorithms for customer retention analysis; achieved **85%+ prediction accuracy**, enabling proactive retention strategies.
- **Enterprise ERP System** — Modular platform managing HR, procurement, inventory, and accounting for large-scale operations; built on Django with PostgreSQL and RBAC.
- **ServerOps & Hosting Suite** — Infrastructure automation toolkit for Ubuntu Linux, cPanel, and SiteGround managing DNS zones, SSL certificates, and daemon health.
- **E-commerce Platforms** — Multiple secure e-commerce solutions with payment gateway integration, order management, admin dashboards, and JWT-secured APIs with React frontends.

Education

Bachelor of Science — Computer Science and Engineering

Expected 2025

The Egyptian E-Learning University — Assiut Branch

Certifications

- Data Science & AI Diploma (243 Hours) — *AMIT Learning (2026)*
- Full-Stack Web Development Diploma — *AMIT Learning (2024)*
- Huawei AI Training — *Huawei Technologies (2022)*

Languages

- **Arabic:** Native
- **English:** Upper-Intermediate (B2)

Personal Information

Date of Birth: April 10, 2002 • Nationality: Egyptian • Military Status: Exempted
